

Ashwaubenon Educational Endowment Foundation Grant Application

In the on-going tradition of the Ashwaubenon School District, this granting program, through funds at the Greater Green Bay Community Foundation, supports the development and continuation of innovative opportunities to enhance student experiences in order to develop them as model community and world citizens. This granting program is not meant to replace the on-going public support of education, but funds opportunities, materials, and experiences that go beyond the school district budget.

Grants will provide support in the areas of classroom, afterschool, and co-curricular programs, technology, teacher training and student enrichment opportunities. Targeted funding areas include:

- Funds necessary for individuals or groups of students to participate in enrichment activities (not undertaken for academic credit or for general operating expenses of co-curricular activities, such as uniforms, equipment, or travel)
- Innovative classroom activities and other programming (such as arts programming) typically not supported by district funding
- Technology and learning projects designed to promote the use of cutting edge technologies in teaching and learning
- Business, civic, and community involvement that will promote the interaction of these groups with students
- Professional training that will positively impact students
- Other areas not typically funded by the district, but consistent with District curricula and policies

The Grant Criteria

Qualified Applicants: Applications will be accepted from any Ashwaubenon School District, parent, staff, or administrator, parent association, or community member partnered with professional School District staff. All applicants must have the approval of their principal (or department head, as applicable). Any school-related activity consistent with District curricula and policies qualifies, except existing activities funded by the School District. Only one application per individual will be accepted each grant cycle. Successful applicants can apply in subsequent years.

Grant Awards: Typical grants range from \$500 to \$2,000 and are annual grants.

Application Deadline: May 15, 2010. Decisions will be announced before September 1, 2010. Implementation of funded programs and activities will occur during the 2010-2011 school year. Previously incurred expenses will not be considered.

Final Report: Successful applicants will be required to complete a brief follow-up report at the end of the project or grant period.

Please contact Martha Ahrendt at the Community Foundation at 432-0800 or martha@ggbcf.org with questions. Submit your application to the Greater Green Bay Community Foundation, 310 West Walnut St., Suite 350, Green Bay, WI 54303. You may fax your completed, signed application to 432-5577.

Provide a project summary in the space provided here (no more than 150 words):	

Please attach an application narrative with the following information (up to 2 typed pages):

1. **Statement of Need/Opportunity.** Describe the need to be addressed and the population that will be involved/served in this project or activity, including the number of participants.
2. **Objectives.** Articulate the expected educational benefit to students. If the activity is a one-time event (i.e., field trip, teacher training, etc.) explain the long term educational benefit to students and/or how it will be integrated into broader classroom activities. If this is a professional development activity or a request for a single student, explain how the opportunity will provide benefit beyond the participant's own development.
3. **Program activities.** Provide information about the specific activities that will occur.
4. **Budget.** Explain how the funds would be used. If there are other revenue sources supporting the project, provide the source and amount requested/received from each source. What are the plans for future funding?
5. **Evaluation:** How will you determine if objectives have been achieved? How will you know if the project is successful? What are the measurable results of this program/activity?

I attest that the information submitted is correct and complete to the best of my knowledge.
