

DONOR ADVISED FUND

ESTABLISHING A FUND

Donor Advised Funds are a simple, tax-smart solution for your charitable giving. You can establish a fund by contributing cash, securities, or appreciated assets, and receive the current-year tax deduction. Because there is no required annual distribution, you can be thoughtful in your giving decisions, and allocate the funds to your favorite charities when it works for you.

To begin the process of establishing a fund, please fill out the information below.

1. Fund Name

Your fund name appears on grant distributions and is listed in our annual report.

Fund Name: _____

2. Investment Pool

We offer three asset allocations for donors to choose from – a long-term pool, a balanced spend-down pool, and a short-term spend-down pool.

Long-term (endowment) – Donor advised funds invested in this pool must maintain a minimum balance of \$10,000. Investment are 70% global equities, 24% fixed income, 6% diversified investments.

Balanced (intermediate) – This pool has less risk than endowment, but less potential for market performance. It is comprised of 70% fixed income and 30% global equities. We typically recommend it for donors who anticipate spending the funds in the next 5-7 years.

Short-term – This pool has the least risk and least potential for market performance. It is comprised of 80% fixed income and 20% cash and government securities. We typically recommend it for donors who anticipate spending the funds in the next 1-5 years.

**Donors can move from a spend-down to the endowment one time. They are not allowed however, to move from the endowment to a spend down pool.*

Investment Pool: _____

3. Fund Advisor(s)

Each fund has a primary advisor. This person will receive all communications and statement notifications from the Foundation. A second advisor, typically a spouse, can also advise the fund. Both advisors have the authority to make grant recommendations, view fund information, and name successor advisors.

Primary Advisor Name: _____

Secondary Advisor Name: _____

Address: _____

Address: _____
