

Capacity Building Recipients Spring 2026

Applicant	Project	Summary
Active Seniors Options	Do Good Door County Donor Engagement	Funding will support the development of a fundraising communication plan that strengthens donor engagement at both the organizational and program levels.
Brown County Oral Health Partnership	Building Sustainable Funding Through Strategic Grant Support	Funding will support the identification of mission-aligned opportunities and the creation of a clearer roadmap for resource development to help prioritize opportunities and strengthen long-term sustainability.
COMSA: A Resource Center Serving Immigrants and Refugees	COMSA & Literacy Green Bay Partnership	Funding will support a structured partnership-planning process between COMSA and Literacy Green Bay. Both organizations share complementary missions and overlapping client populations, serving Green Bay's growing immigrant and refugee population.
Counting Stars	Communications Capacity Building & Community Awareness Initiative	Funding will support a communications initiative designed to strengthen the organization's ability to communicate their impact, diversify funding sources, and increase community awareness of disability support services.
Cup O' Joy	Cup O Joy	Funding will support the move to the next phase of the organization's transition from a founder-led, all-volunteer organization to a more sustainable model.
Denmark Community Cupboard	Denmark Community Cupboard	Funding will support efforts to unify multiple program identities into one clear organizational presence, reduce community confusion, improve navigation for volunteers and donors, and create a sustainable, cost-effective communication system.
Hand-N-Hand of Northeastern Wisconsin	Hand-N-Hand Governance Strengthening Initiative	Funding will support the development of a comprehensive governance-strengthening plan for the Board of Directors.
Heritage Hill	Heritage Hill - Capacity Building	Funding will support a strategic planning process to guide the organization's priorities and operations over the next three to five years.
